

Tímea Antal

Senior Android Engineer | Mobile Development Tech Lead

timea.kerekgyarto.work@gmail.com | [linkedin.com/in/timeaantal](https://www.linkedin.com/in/timeaantal)

PROFESSIONAL SUMMARY

Android developer with experience in telecom, banking, ERP and healthcare applications since 2011. Most recently led a six-person Android team at One Hungary, working on an app used by more than one million customers. Main areas of experience include Kotlin, Java, Coroutines, Clean Architecture and MVVM, alongside code review, technical decisions and release planning. Certified Scrum Master with experience in both development and team leadership. Currently building a personal Android app with Jetpack Compose.

KEY STRENGTHS

- ▶ **Team leadership:** Led a six-person Android team and coordinated day-to-day development work.
- ▶ **Android architecture:** Made technical decisions and reviewed changes across the One Android codebase.
- ▶ **Code review and CI/CD:** Responsible for final code review at One; built and maintained Jenkins pipelines at Mondriaan.
- ▶ **Scrum:** Worked in Scrum teams for over a decade, including three years as a team lead and Scrum Master.
- ▶ **Business collaboration:** Discussed priorities and technical options directly with business stakeholders.
- ▶ **Product experience:** Developed consumer apps, mobile banking applications and ERP mobile clients.
